RAILROADS STRONG,

WHOLE MARKET FINISHED SOMEWHAT LOWER.

Relief of Ladysmith Helped London Prices Considerably— Third Avenue Situation.

REPUBLIC SPECIAL.

New York, March 1.—The relief of Ladysmith gave a firm tone to the London market, which was maintained up to the finish. Consols, quoted ex the dividend today, recovered nearly the whole of it, showing a net advance of 2-16. American stocks were from % to 1 per cent above stocks were from % to 1 per cent above parity. The general market, especially the Kuffir stocks felt the benefit of the REPUBLIC SPECIAL New York, March 1 -- Sales of bonds we The discount rate in the open market was shade easier, but harder in Bertin, Conmued strength was shown in the price of ar silver. Foreign bourses were strong, nd French rentes continued to advance, alleating a hopeful pelitical outlook. The New York market showed strength a the railroad stocks, but weakness in adustrials. The recommendation of the Inlustris; Comm'yston that trusts shall be rejuired to publish an annual balance sheet nd a monthly statement similar to that of the vrailroads will have far-reaching onsequences and looks like hurting some of these concerns a good deal. The steel tocks, especially, will feel the effect, but t will be interesting to see its operation i: lugar. Lailroads were continually well wought, both for commission houses and for he large 'inancial interests, while there were about 15,000 shares bought by foreign

Tractions were rather weak, in sympathy with Third Avenue, and it looks as if some of the helders of the latter had been compelled to l'quidate. Sugar was weak and the dividend question was having an unsettling effect, though not so much as formerly. The continued weakness in infustrials and the traction stocks, especially Taird Avenue, caused the whole market to inish weak, asthough railreads he'd up uniparatively well. Ugly stories were curcent as to the condition of Third Avenue, and it was openly said, in view of the finacial position of the company, that the recent declaration of a dividend was most suspicious and was probably made with an idea of staving off inquiry into the mis-application of the company's funds. The close was very near the lowest in indus-rials and tractions. There was a fair cally in reilroad stocks.

The relief of Ladysmith marks an im-portant advance toward the settlement of the South African question. The now considerably reduced Boer army will have to concentrate in the Transvaal or run the risk of having sections of it cut off like General Cronje. The strength of European markets shows that the campaign is at the beginning of the end in spite of prophecies the contrary.

To return to the question of the trusts furnishing accounts for publication, the continued selling of industrials from Wash-

continued selling of industrials from Washngton shows that legislation by the Rejundican party on these lines is considered
nevitable, if only to anticipate such action
by the Democratic party. While it will
infloabledly unsettle the inclusival market
considerably, the ultimate effect of such
legislation will give strength and stability
to the whole speculative list.

The preference snareholders of Tennessee
Coal and from have consented to the retirement of the preferred stock. No statement
as to the gas war was given out at the new
Amsterdam gas meeting to-day. Serious
competition from a new syndicate with the
American Steel and Wire Company is
feared. The railroad earnings centinue
large, and the granger stocks, in spite of
their loss from the holding back of wheat
by the furmers, are beginning to show in
reases, notably Burlington and St. Paul,
here has been good buying in these, and
t both the cotton and car roads, both for
treet interests and investment.
